

Materials Management Services for Leasing Companies

Component Support during Aircraft End of Lease checks & Redeliveries

**24/7 AOG
Service**

During the redelivery of any aircraft, component requirements relating to the check can be costly, time-consuming and a major drain on technical resources of Lessors.

Prime Air - A HEICO Aerospace Company, understands the challenges in managing materials throughout this process and can offer a variety of services to our Lessor clients.

- Repair Management - Supported by HEICO Repair Group capabilities and our extensive network of OEMs and FAR 145 Repair Stations
- Rotable Exchanges & Outright Sales - From our extensive pool of inventory located in the USA & UK
 - OCCM and Hard Time requirements
 - Wheels & Brakes
 - Landing Gear / APU / Engine LLPs and Accessories with BTB
 - SB and AD Compliance
- Logistical Solutions - Available through our corporate courier rates
- Cockpit Modification Programs - Our expertise ensures cost and time effective mod programs, which include revenue gathering solutions on removed retrofit components
- Inventory Remarketing - Our large customer base and proactive global sales teams ensure any surplus inventory belonging to the Lessors can be sold to extract maximum value from otherwise redundant assets
- Daily Progress Reports - Provided to on-site Tech Managers
- Assigned Account Manager - Responsible in USA or UK
